Attachments: EPA Response to Sen. Johnson on Sheboygan ozone.pdf

I've attached our response to Sen. Johnson – the folks in the Region 5 office are talking a lot with the state and local folks on this. Specifically, the Region 5 air monitoring group worked with Wisconsin to site a second ozone monitor in Sheboygan County to better understand the local ozone transport phenomenon and to help inform decisions during the ozone designations process. (And the Technical Support Document they submitted with the letter was in part possible by the additional monitor.) Also, Region 5 has had a number of meetings with representatives from the Wisconsin Department of Natural Resources, Sheboygan County, the City of Sheboygan, and the Sheboygan Chamber of Commerce to discuss ozone designations and the impact on the area.

Good to know! What did we say to Johnson and Grothman? I think it's something we'd like to be helpful on.

Sure thing – I'll connect with Region 5 about this. We just responded to a letter on the same topic and area of WI from Sen. Johnson and Rep. Grothman, so I've been in touch with them about it recently. The designations are dealt with primarily in the regional offices, since the staff there interface so much with the state environmental agencies.

Morning! Any chance you can look into this specific county in WI and their problem with a monitor re ozone attainment?
 Thank you!

Hi Tate – please see attached letter and can you please loop back with Kyle from Gov. Walker’s team to help coordinate?

*Julia – please log.

Sincerely,
Doug

Doug:

Attached is a letter to EPA from WI DNR. Do you have an EPA intergovt contact yet?

Kyle
